REMUS INNOVATION

Kompetenz bei Motorradabgasanlagen / competence in motorbike sport exhaust systems

Seit über 25 Jahren entwickelt und fertigt REMUS qualitativ hochwertige Sportauspuffanlagen für Motorräder.

Darüber hinaus beliefert das Unternehmen namhafte Motorradhersteller als Erstausrüster mit Komponenten und kompletten Abgasanlagen.

Das hochmoderne REMUS Forschungs- und Entwicklungszentrum bietet weitreichende Möglichkeiten zur Entwicklung von Abgasanlagen. Neben der mechanischen und thermischen Auslegung sowie Optimierung steht natürlich die Entwicklung des typisch sonoren REMUS Sounds im Mittelpunkt.

Die Kombination aus hochwertigen Werkstoffen, modernsten Bearbeitungs- und Verfahrenstechnologien sowie hochqualifizierten Mitarbeitern garantieren Produkte der Spitzenklasse mit höchster Form- und Passgenauigkeit.

Since more than 25 years, high quality sport exhaust systems for motorbikes are produced and manufactured at REMUS.

Furthermore, REMUS produces OE components and complete OE exhaust systems for well known vehicle manufactures.

The REMUS Research and Development center offers extensive possibilities in the development of exhaust systems. Beside the mechanical and thermal design and optimization, the creation of the well known sonorous REMUS sound is one of the most important development targets.

The combination of high quality raw materials, modern machining and special process technologies together with highly qualified employees results in first class products of perfect shape and fitting accuracy.

*STAY TUNED!

(mit EG Genehmigung / with EC homologation)

Komplettanlage 2-1 mit konischem Schalldämpfer / Complete system 2-1 with conical exhaust

Komplettanlage 2-1 mit PowerCone Schalldämpfer / Complete system 2-1 with PowerCone exhaust

REMUS SC15 - ELECTRONIC SOUND CONTROL

für Sportster, Dyna, Softail und Touring / for Sportster, Dyna, Softail and Touring

Die von REMUS entwickelte Electronic Sound Control – kurz SC15 – genannt ist ein CAN-Bus gesteuertes Klappensystem, mit einer im Endschalldämpfer sitzenden Klappe.

Das Steuergerät verarbeitet die CAN-Bus Signale und gibt sie über den Aktuator an die Auspuffklappe weiter. Dadurch ergibt sich in Abhängigkeit sämtlicher Motorparameter und Fahrzustände eine exakte Ansteuerung der Klappe zur Optimierung des Sounds unter Berücksichtigung sämtlicher gesetzlichen Richtlinien.

Zusätzlich besteht über einen am Lenker montierten Taster die Möglichkeit, aktiv in das Soundmanagement einzugreifen. Die komplexe Elektronik stellt aber in jedem Fall sicher, dass in Abhängigkeit von Drehzahl, Geschwindigkeit und gewähltem Gang die Geräuschwerte entsprechend der EG Genehmigung eingehalten werden.

The latest electronic sound control system from REMUS, called SC15, is a CAN-bus controlled valve system, with a muffler integrated flap.

The control unit processes the CAN-bus signals and passes it via the actuator to the exhaust flap. This leads in dependence on engine parameters and drive conditions to an accurate triggering of the flap to optimize the sound under consideration of legal guidelines.

In addition to this the sound can be modulated via a handle bar mounted push button switch. In any situation the complex electronic ensures in dependency of rev, speed and gear the compliance with sound regulations stated in the EC homologation.

- für / for Sportster, Dyna & Softail

Deaktivierungsstecker für Serienklappe / deactivating plug for serial valve (RACING - no EG/ABE/EEC)

- für / for Touring

- für / for Touring

REMUS 8

mit EG Genehmigung / with EC homologation & Racing

**NEW
PRODUCT**

- Oktogonale Form / Octagonal geometry
- L x B x H / L x W x H: 485 x 110 x 180 mm
- Mantelmaterial Edelstahl schwarz lackiert oder Edelstahl / Sleeve materials: Stainless steel black or stainless steel
- Einlasskappe: Edelstahl / Inlet cap: Stainless steel
- Endkappe: Carbon / End cap: Carbon
- Gewicht / Weight: 3,20 kg

REMUS BLACK HAWK

mit EG Genehmigung / with EC homologation & Racing

- Hexagonale Form / Hexagonal geometry
- Breite x Höhe / Width x height: ~ 105 x 137 mm
- Mantellänge von 350 bis 420 mm, Motorradabhängig / Sleeve length from 350 to 420 mm, depends on motorcycle
- Mantelmaterial Edelstahl schwarz lackiert / Sleeve materials: Stainless steel black
- Einlasskappe: Edelstahl / Inlet cap: Stainless steel
- Endkappe: Carbon / End cap: Carbon
- Gewicht ab 1,96 kg / Weight: from 1,96 kg

REMUS HEXACONE

mit EG Genehmigung / with EC homologation & Racing

- Hexagonale Form / Hexagonal geometry
- Breite x Höhe / Width x height:
~ 105 x 137 mm
- Mantellänge von 250 bis 420 mm,
Motorradabhängig /
Sleeve length from 250 to 420 mm,
depends on motorcycle
- Mantelmaterialien: Edelstahl, Carbon,
Titan / Sleeve materials: Stainless steel,
Carbon, Titanium
- Einlasskappe: Carbon / Inlet cap: Carbon
- Endkappe: Carbon / End cap: Carbon
- Gewicht / Weight: ab / from 1,54 kg

REMUS HYPERCONE

mit EG Genehmigung / with EC homologation & Racing

- Konische Form / Conical geometry
- Durchmesser / Diameter:
~ Ø 120 mm bis / up to ~ Ø 75 mm
- Mantellänge von 250 bis 400 mm,
Motorradabhängig /
Sleeve length from 250 to 400 mm,
depends on motorcycle
- Mantelmaterialien: Edelstahl,
Edelstahl black Carbon, Titan /
Sleeve materials: Stainless steel,
Stainless steel black, Carbon, Titanium
- Einlasskappe: Edelstahl /
Inlet cap: Stainless steel
- Endkappe: Carbon / End cap: Carbon
- Gewicht / Weight: ab / from 1,28 kg

REMUS OKAMI

mit EG Genehmigung / with EC homologation & Racing

REMUS RACING TECHNOLOGY

Von der Rennstrecke auf die Straße / from the racetrack to the street

REMUS Rennsporttechnologie findet man auf nahezu allen Rennstrecken dieser Welt. Die dabei gewonnenen Erfahrungen fließen direkt in die Produktentwicklung und Serienfertigung der REMUS Sportauspuffanlagen ein und garantieren stetige Produktinnovation und höchste Qualität.

Zahlreiche Superbike- und Supersportteams vertrauen seit Jahren auf das Know-how von REMUS. Siege in den unterschiedlichsten nationalen und internationalen Rennsportklassen unterstreichen eindrucksvoll die Leistungsfähigkeit der REMUS High Performance Abgasanlagen.

REMUS Racing Technology can be found on nearly every race track around the world. The technical expertise of racing is transferred straight to our street legal sport exhaust systems. Extensive racing usage provides the necessary feedback for the REMUS technicians to develop and produce REMUS sport exhaust systems and guarantee ongoing product innovation and highest quality.

Since many years numerous Superbike and Supersport teams trust in the know-how of REMUS. Wins in different national and international racing series proved the performance of REMUS sport exhaust systems in an impressive manner.
